

Let Whitlock help you identify, plan, and deliver next-generation IT operations

With very few exceptions, the business depends on IT to realize its competitive vision and advantages. Together with Splunk, we can ensure your IT operations are tightly aligned to that vision – empowering your IT organization to not only function more efficiently, but also deliver more value to the business.

Are you feeling *the pressure*?

Today's IT and operations teams are facing four key challenges. As a leader, do you feel the pressure in any of these areas?

The explosion of data

Your people and systems are producing more data than ever before – and it's hard to use, as well as manage.

Demands for agility

Your IT infrastructure and operations must be flexible enough to adapt to changing business needs.

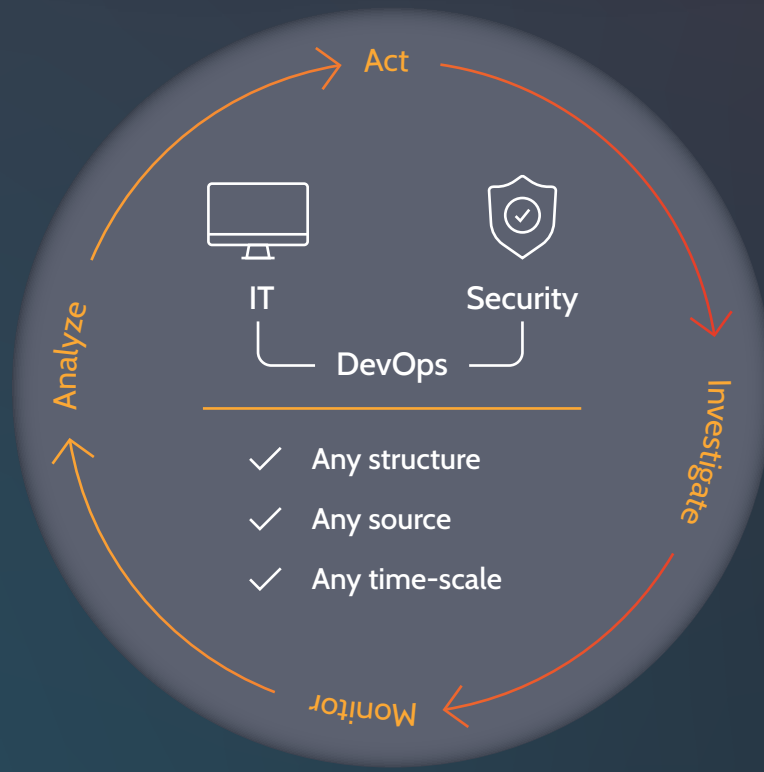

Increasing complexity

Your IT environment has become so elaborate that your operations are almost unmanageable.

Mandates for compliance

You struggle to reduce risk and meet new needs in a dynamic IT environment that's full of complexity.

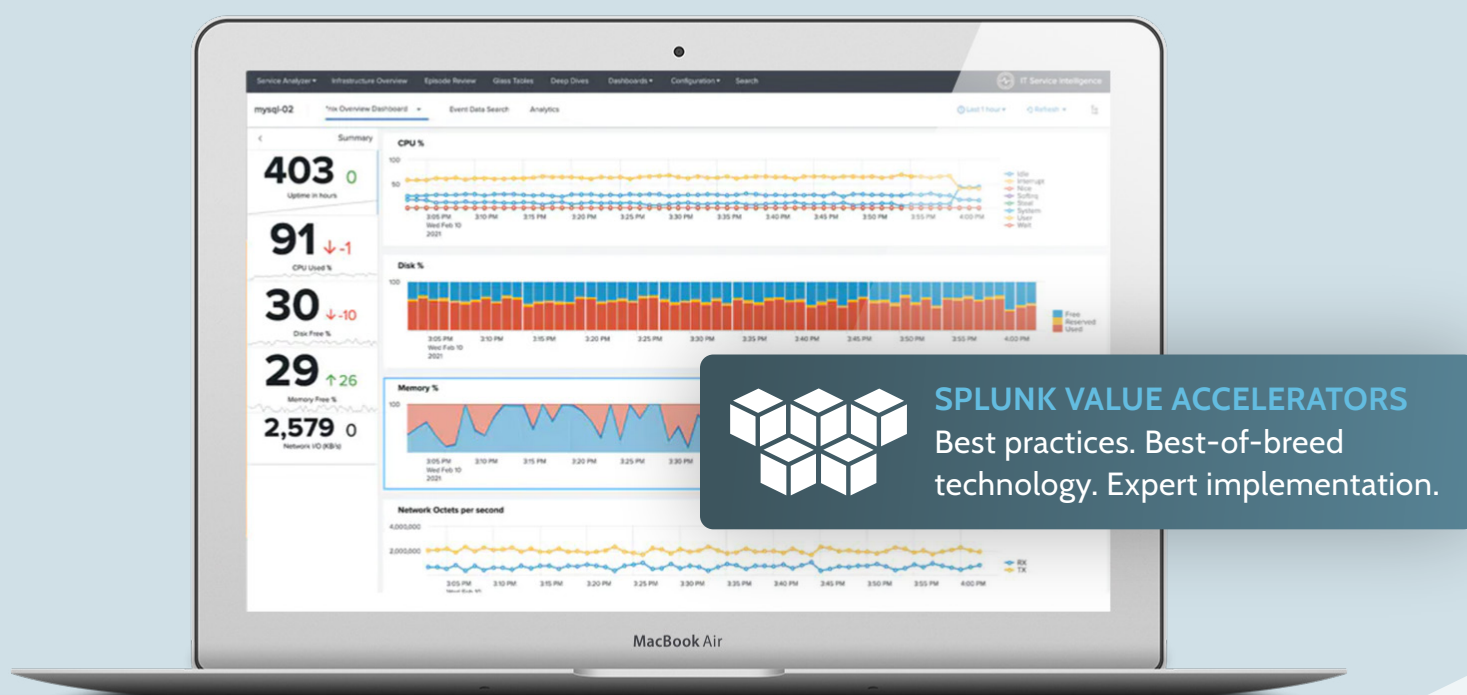

If you're struggling in any of these areas, *Whitlock can help.*

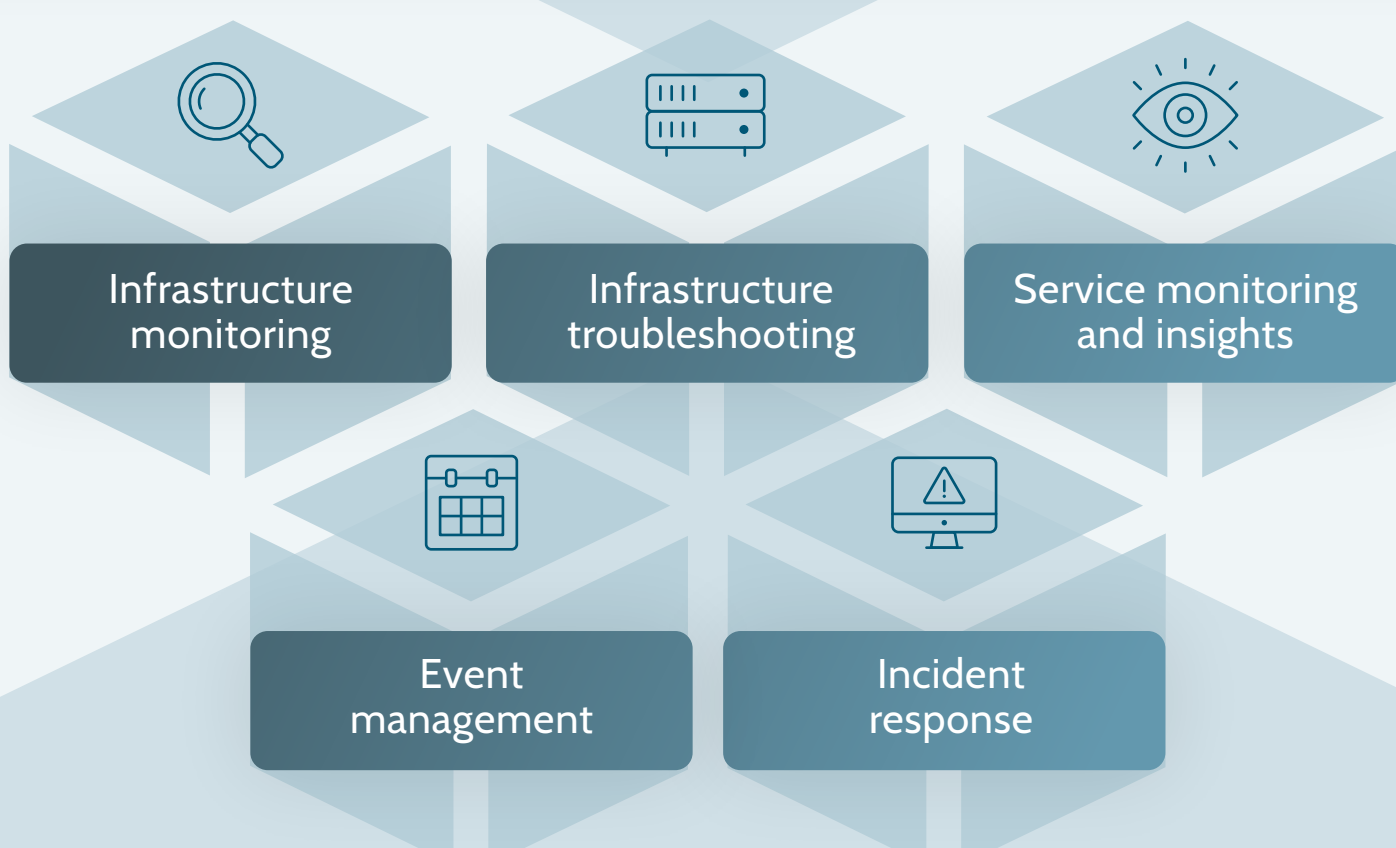

Splunk is truly the Data-to-Everything™ Platform – and at Whitlock, we can help you take advantage of Splunk's observability and operations management (ITOM) use cases to address these emerging challenges, and so much more.

Deliver next-generation IT operations with *Whitlock and Splunk*

While most know Splunk for its security use cases, their innovative software can also help you better manage your IT infrastructure and the services it provides to both your users and the business.

WE'VE BUILT VALUE ACCELERATORS THAT SPEED THE TIME-TO-VALUE FOR SOME OF SPLUNK'S MOST IMPACTFUL USE CASES, EVEN IF YOU'RE ALREADY A SPLUNK USER:

PLUS, WE ALSO BRING ADDITIONAL EXPERTISE TO THE TABLE THAT ENABLES US TO BE A TRUE PARTNER IN IDENTIFYING, PLANNING, AND DELIVERING NEXT-GEN IT OPERATIONS:

- 

Enterprise ITOM is one of Whitlock's core competencies
- 

Integration expertise with other solutions like Micro Focus
- 

A methodology to ensure you achieve your expected outcomes
- 

Managed services to help with data migration, dashboarding, and more

Why should you consider *working with Whitlock*?

At Whitlock, we have what it takes to help you evolve your IT operations and service management capabilities to overcome emerging challenges and better align with the needs of your business.

- 

UNRIVALED SPLUNK EXPERTISE
Few companies can breach our level of expertise with Splunk, especially from an IT operations perspective.
- 

30+ YEARS OF ITOM EXPERIENCE
We have more than three decades of ITOM and ITSM experience working with enterprise customers.
- 

OUR RELENTLESS PURSUIT OF VALUE
Everything we do is geared to ensure you realize value from the technology and services you invest in.

Schedule a ValueFirst planning session today

We'll work with you to gather requirements, define outcomes, and show you exactly how your IT operations and service management processes will benefit from Splunk.
