

ValueAccelerator-APM

Whitlock ValueAccelerator-APM is a rapid time to value full-stack monitoring bundle. VA-APM includes everything necessary to deliver value; best practices, best-of-breed technology, and expert implementation.

Digital transformation is accelerating faster than ever. Dynamic, multi-cloud is now the norm. Scale and complexity are exploding. All of this must be dealt with fewer resources and less time. These challenges are driving companies to completely overhaul their strategy for monitoring and observability.

Solution Highlights

INTELLIGENCE AND AUTOMATION

Dynatrace is an all-in-one platform with automation and AI at the core that delivers best in class APM, infrastructure monitoring, application security, digital experience management, and digital business analytics with AIOps built-in.

AUTOMATIC ROOT CAUSE ANALYSIS

Dynatrace continuously observes, learns and auto-adapts to changes in real-time to detect problems automatically. Dynatrace's Davis AI leverages real-time topology, business impact, and automatic error recognition to provide valuable context instantly.

DASHBOARDS AND REPORTING

OOTB Dashboards provide the basic views for Executive and Operations personas and custom dashboards can be created with a web-based, no programming required interface. Custom reports can be configured in a similar fashion.

ValueAccelerator-APM

The Whitlock ValueAccelerator-APM lets the experts handle all of the work needed to plan, implement, and support a next generation infrastructure monitoring system. It starts with a proven, project methodology, **WhitlockIS ValueFirst**, to ensure business goals and objectives are clearly defined and realized. Next, Whitlock's expert delivery team will deploy and configure the solution. Finally, **WhitlockIS TotalCare** will provide support and guidance to drive and expand ongoing solution value.

Four Easy Steps To Get Started

1

Contact info@whitlockis.com today to get started. It begins with a simple discovery call to understand your needs and provide an overview of relevant solution capabilities.

2

Participate in a **WhitlockIS ValueFirst** workshop to capture organizational goals/objectives, required capabilities, consumers, and expected value to ensure the investment aligns with business goals and outcomes are well understood – in business terms.

3

Whitlock's expert consultants will deliver the deployment and configuration of the solution according to the output from the workshop. Expect an as-built walkthrough and as-configured documentation when completed. The VA-APM solution starts at 100 full-stack hosts (1 host unit each), 5 Browser Monitors, and 10 HTTP Monitors, but can scale to any size.

4

Enjoy the white glove treatment from **WhitlockIS TotalCare** to answer any questions, help out with further configuration, and act as the point of contact for any support issues that may arise.
