

ValueAccelerator-Platform

Whitlock ValueAccelerator-Platform is a rapid time-to-value infrastructure/cloud/kubernetes monitoring bundle. VA-Platform includes everything necessary to deliver value; best practices, best-of-breed technology, and expert implementation.

Organizations rely on complex applications, diverse infrastructure, and multi-cloud strategies to enhance customer experience and drive business outcomes. With this complexity, measuring reliability and performance becomes more difficult – which is why forward thinking organizations understand that investment in a next generation solution is a must for today’s rapidly changing landscape.

Solution Highlights

COMPREHENSIVE VISIBILITY

Dynatrace customers enjoy robust, industry leading, full-stack visibility into their critical business applications. But why should applications have all the fun? Just as important are the platforms these applications run on, whether on-premise, in the cloud, or containerized. Whitlock and Dynatrace can help you give your platforms the same visibility.

AGGREGATED EVENT DATA

When Dynatrace is configured to manage both applications and the platforms they run on, incredibly rich event detail can uncover root cause faster than ever. Tying application performance issues for example to a saturated network interface becomes an easily visible cause.

OBSERVABILITY

OOTB Dashboards provide views for Executive and Operations personas and custom dashboards can be created easily and quickly without programming.

ValueAccelerator–Platform

The Whitlock ValueAccelerator-Platform lets the experts handle all of the work needed to plan, implement, and support a next generation infrastructure monitoring system. It starts with a proven, project methodology, **WhitlockIS ValueFirst**, to ensure business goals and objectives are clearly defined and realized. Next, Whitlock’s expert delivery team will deploy and configure the solution. Finally, **WhitlockIS TotalCare** will provide support and guidance to drive and expand ongoing solution value.

Four Easy Steps To Get Started

1

Contact **info@whitlockis.com** today to get started. It begins with a simple discovery call to understand your needs and provide an overview of relevant solution capabilities.

2

Participate in a **WhitlockIS ValueFirst** workshop to capture organizational goals/objectives, required capabilities, consumers, and expected value to ensure the investment aligns with business goals and outcomes are well understood – in business terms.

3

Whitlock’s expert consultants will deliver the deployment and configuration of the solution according to the output from the workshop. Expect an as-built walkthrough and as-configured documentation when completed. The VA-Platform solution starts at 3 business applications but can scale to any size. We use business applications as a bounding box to ensure all the required platform components are included and the holistic view of platform and application be achieved.

4

Enjoy the white glove treatment from **WhitlockIS TotalCare** to answer any questions, help out with further configuration, and act as the point of contact for any support issues that may arise.
